## 1 CORRECTOR-

Acidic pH control

A concentrated powder product for the pH control of bodies of water to optimal pH levels. This product is suited for pools with pH higher than 7.6.

**Sack** 10Kg 25kg

## 2 CORRECTOR+

Alkaline pH control

A concentrated liquid product for the pH control of bodies of water to optimal pH levels. This product is suited for pools with a pH lower than 7.6.

**Tank** 10Kg

## 3 CORRECTOR - SOL

Acidic pH control

A concentrated liquid product for the pH control of bodies of water to optimal pH levels. This product is suited for pools with a pH higher than 7.6.

**Tank** 10Kg 25kg

## 4 SODIUM HYPOCHLORITE

14% chlorine active sanitizer

A liquid bleaching agent with sanitizing action for industrial laundries, for the treatment of white linens such as: bed sheets, mattress cover, towels. This product efficiently removes ring stains and colored stains of organic nature.

**Tank** 10kg 25Kg

## 5 DETERCLORO

Powdered chlorine

A powder product with granules of organic chlorine (56% of active chlorine). It's easy to use due to its total water solubility. It doesn't leave any residues and it doesn't increase the total water hardness like sodium hypochlorite does. It is resistant to photochemical decomposition so the employed quantities are substantially fewer than other chlorinating agents (sodium hypochlorite, calcium hypochlorite, etc.) and doesn't change the pH level.

**Tank** 10kg 25Kg

## 6 DETERCLORO T

Multifunctional tablets

Organic chlorine based tablets with 78% of active chlorine. Compared to similar products, it has a triple action: disinfection, algae inhibition, flocculation and clarification.

**Tank** 10kg 25Kg

## 7 NEUTRO CLORO

Chlorine neutralizer

A product suited to neutralize free and bonded chlorine in excess in the pool. Its use is necessary after a strong chlorination of pool water in order to allow safe bathing and environmentally safe draining of the water.

**Tank** 25Kg

## 8 SANIFY SWI

Sanitizing algae inhibitor

A product with quaternary ammonium salts which have a great germicidal power and algae inhibition, even at low concentrations. It is recommended to use SANIFY SWI with DETERCLORO (a product with active chlorine by Heart), especially during periods with great activity, thusly reducing the risk of contamination and proliferation of bacteria.

**Tank Box** 25Kg 3x4Kg

## 9 FLUOC A

Pool flocculant agent

A liquid flocculant with inorganic aluminum salts that promote the flocculation of pool water. This product is indispensable for the maintenance of pool water during periods of inactivity. It also facilitates the filtration of muds and the precipitation of calcium, manganese and magnesium salts.

**Tank** 10Kg

# PISCINA

## 10 HV 501

Degreasing detergent

A concentrated detergent designed for all kinds of floors (linoleum, terracotta, marble) and washable surfaces (suction hoods, workbenches, pools). It easily eliminates even the hardest of the soils. This product is not only suitable for manual cleaning but can also be used in floor washing machines.

**Tank** 10kg  
**Box** 3x4Kg 25Kg

## 11 SKIPPER

Descaling detergent

This product is suited for periodic maintenance of pools. Its formula contains inorganic buffered acids which remove encrustations and degrease pool walls, achieving great cleanliness.

**Tank** 25kg  
**Box** 3x4Kg

## 12 SANIFY

Sanitizer

A product with quaternary ammonia salts which have a great germicidal power and algae inhibition, even at low concentrations. It is recommended to use SANIFY SWI with DETERCLORO (a product with active chlorine by Heart), especially during periods with great activity, thusly reducing the risk of contamination and proliferation of bacteria.

**Tank** 25kg  
**Box** 3x4Kg

## 13 NEWKAL

Descaling acid descaler

A sanitizing detergent which is able to eliminate every trace of hard water scale from all hard surfaces (including enameled surfaces) without any corrosion effect. This product is suited for all kinds of surfaces and is designed to remove any encrustations on taps, toilets, glasses, aluminum, tiles, stoneware, terracotta, porcelain and ceramics.

**Box** 6x750ml 3x4Kg

## 14 SUPERCLEAR

All purpose sanitizing cleaner

An all purpose cleaner with a Marseille fragrance. This detergent dissolves all kinds of dirt even the heaviest ones. Its exclusive formula has a dual action: cleans and sanitizes.

**Box** 6x750g 3x4L

## 15 TERGLASS

Hydro repellent detergent

Due to its innovative formulation, this product, generates a compact foam with enhanced detergency and casts a hydro repellent film with delays the next cleaning operation.

**Tank** 25kg  
**Box** 6x750ml 3x4L

## 16 SERVICE

Dosing systems

Heart offers a service of installation and maintenance of dosing systems for the automatic dilution of specific products for kitchen use.
